

All foreigners that come to Colombia to participate in a cinematographic or audiovisual work should have the respective permit in order to do this activity.

In this instructive, you will find all information referring to the entrance of the foreign crew to Colombia.

Information System for the Registration of Foreigners (SIRE)

It is mandatory (whether the entrance to the Country is with a Type V Courtesy Visa or with a Colombia Migration Passport Stamp) for the Colombian audiovisual service production company to register all the foreign crew and cast in the *Migración Colombia's* platform, INFORMATION SYSTEM FOR THE REGISTRATION OF FOREIGNERS ([SIRE](#)). We suggest to use Mozilla Firefox web browser and to have in hand the company's documentation (Certificate of existence and legal representation, identification document for the legal representative) of the Colombian audiovisual service production company y that will register the foreign crew, as these will be requested to be uploaded to the platform. The system will respond in up to 3 working days in regard to the submission.

The screenshot shows a web form titled "INSCRIPCIÓN EN EL SISTEMA DE INFORMACIÓN PARA EL REPORTE DE EXTRANJEROS". The form includes a "Datos Básicos" section with a "Sistema de Información" pop-up window. The pop-up contains a message: "Su solicitud de cuenta de usuario ha sido recibida por el sistema y será atendida en los próximos 3 días hábiles. Un e-mail de confirmación ha sido enviado a su cuenta de correo registrada acastillosanchez20901@gmail.com. Se recomienda que revise su bandeja de spam o correo no deseado." Below the message is an "Aceptar" button. The form also has a "Reporte" section with checkboxes for "Académicas", "Cooperantes y Voluntarios", "Religiosas", and "Transporte Nacional (Adriático)". At the bottom, there is a "Persona" dropdown menu set to "PERSONA NATURAL" and an "Identificación" field with the value "1057215455".

Once the production service company is registered, you will have to register the foreign crew. This registration will have to be done after they enter Colombia, and before they start the audiovisual work in the country. Once the foreigner leaves the country, you will need to register the exit on the same platform. Not to do this process may incur economic sanctions of 8 to 100 SMMLV (Colombian Monthly Minimum Wage). Take into account that every time any person in the foreign crew returns to the country, you will have to repeat this process.

When is it not necessary to have a Visa to enter Colombia?

In case people in the foreign crew remain in Colombia for **less than 90 days**, there is no need to have a visa, but must carry a letter of presentation issued by the Colombian audiovisual service production company (or whoever acts as such) where they inform the following:

- Name of the production services company or whoever acts as such.
- Name, citizenship, passport number and job title of the foreigner.
- Dates of entrance and exit to and from Colombia.
- Type and name of the production in which the foreigner will participate.
- Date of beginning and ending of the activities of the project.
- Name of the foreign production company.
- Clarification that this foreigner will NOT RECEIVE ANY COMPENSATION in Colombia, nor do they have any work relationship with a Colombian company.

Upon entering the country, they must present the letter to *Migración Colombia* for the officer to set a POA (Other Activities Permit) stamp for 90 days in their passport. Take into account that this permit can NOT BE EXTENDED. Therefore, the person will have to leave the country in this period of time, or incur in migratory sanctions.

Take into account that each migratory agent can determine which stamp to assign. They will analyze the documentation and, according to the laws, resolutions, normatives and instructions of *Migración Colombia*, take the decision on which stamp to give. It is the responsibility of the Colombian audiovisual service production company (or whoever acts as such) to review the stamp and time of the permit in order to identify any potential inconveniences. In case that a different stamp to POA has been provided, it is necessary that, after the entry to Colombia, a change of stamp is requested directly to *Migración Colombia*.

When is it necessary to have a visa to enter Colombia?

Below you can find the characteristics that determine if the foreign crew must enter Colombia with a Visa:

1. If the nationality of the crew is a restricted nationality. In this case, the foreigner is required to have a visa to enter Colombia. This visa must be requested through the *Cancillería* platform and must select the offices of the consulate that is closer to the residency of the foreigner. DO NOT SELECT THE OFFICES OF *CANCILLERÍA* IN BOGOTÁ as the visa will be rejected and the process will have to start over. To corroborate this, find here [resolution 5488 of July 22nd, 2022](#), and the list of [restricted nationalities](#). Take into account that, in this case, Proimágenes will not handle this Visa request. It must be requested directly by the foreigner or whoever may have the authority to do so in their place. In any of these cases, you may notify the team of the

Colombian Film Commission in Proimágenes for them to be informed and be able to support you if needed.

2. If there is a work relationship between a colombian company and the foreigner that is entering the country. In this case, you should request a work visa directly from the Ministry of Foreign Affairs. Take into account that, in this case, Proimágenes can not request this visa.
3. If the stay of the foreigner in Colombia exceeds 90 days.

Important notes:

1. In case your visa is about to expire, keep in mind that Resolution 5488 of July 22, 2022, article 111, allows you to remain in the country for an additional 30 calendar days to normalize your immigration status, that is, to obtain a safe-conduct or apply for a new visa or to leave the country. Also, keep in mind that during this additional time you cannot work unless you have your new permit.
2. Keep in mind the validity of the visas of foreign personnel. It is very important that foreign personnel **DO NOT** remain in Colombia without authorization. This entails immigration problems and fines.
3. Take into account the validity of the permit for other activities (POA). It is very important that foreign personnel **DO NOT** stay in Colombia with an expired POA. This leads to immigration problems and fines, to avoid them, make sure you have a POA valid for your entire stay in the country. In case you need to extend your stay in the country for more than the 90 days granted in the POA, you can request, (while in Colombia), a courtesy type V visa. However, this procedure must be done 30 days prior to the expiration of the POA.
4. Please note that if any of the foreign personnel entering the country has 2 valid passports, they must enter the country with the one in which they have the visa. Failure to do so may lead to immigration problems at the time of departure from Colombia.
5. The truthfulness of all information provided to Proimágenes by the applicant is the responsibility of the applicant. In other words, the applicant is responsible for the foreign personnel and must know everything about them.
6. Once the foreign crew enters the country, it is the responsibility of the applicant to be aware of the type of entry that was granted upon entering the country. If any inconsistency is found, please consult with the relevant authority to solve the problem in time.

7. Since the stay will be longer than 90 days, you must request a foreigner's identification card from Migration Colombia.
8. The authorization, approval, Proimágenes' opinion or, as the case may be, the denial thereof shall be communicated to the applicant within a maximum of **ten (10) business days** after the requirements have been met.
9. Please note that if the shooting dates are changed affecting the dates of entry and/or exit of the country, the visa cannot be modified. In this case, you must request a new visa with the updated dates and therefore an adjustment to the filming resolution issued by DACMI or request a new foreign audiovisual work certification(s) issued by Proimágenes Colombia - Colombian Film Commission.
10. Remember that the Ministry of Foreign Affairs uses the dates stipulated in the filming resolution issued by DACMI or in the foreign audiovisual work certification issued by Proimágenes as the validity date for the visa. Keep in mind that in the event that your filming is extended and you need to apply for new visas for the new validity, you must request an update of the filming resolution or Certification of Foreign Audiovisual Work.
11. If your visa is about to expire and you need to apply for a new visa, the foreign audiovisual work certifications for this new visa do not require a new payment. Keep in mind that you must apply for these certifications and the new visa process **BEFORE** your current visa expires. Please note that the deadline for visa applications is **15 working days prior to the expiration date**. After this time, applications for new visas are not accepted and you will have to apply on your own.
12. The visa procedure can be done directly by the visa applicant or whoever has the power to do it for him/her. This must be done through the platform of the Ministry of Foreign Affairs for visa applications. This procedure is free of charge since it is a courtesy visa. It is recommended that the Colombian production services company or whoever takes its place, is the one who requests the visa for foreign personnel, in order to minimize errors and delays in the process.
13. You must take into account that the delivery of the visa depends on the internal timing of the nearest Foreign Ministry or consulate. In case of requesting a visa from a consulate, please notify Proimágenes Colombia - Colombian Film Commission.
